Triodos Impact Mixed Fund - Offensive aims to generate positive impact and competitive returns from a concentrated portfolio of global equity positions and investment-grade corporate, sovereign and sub-sovereign bonds.

We select companies for their contribution to our seven sustainable transition themes. Through integrated financial and sustainability analysis we identify the drivers of a company's long-term value creation and assess the impact of ESG materiality on these drivers. Additionally, the companies we invest in must comply with the Triodos strict minimum standards. This product is not without risks. Please see the prospectus and the KID for more detail.

Highlights

- Triodos Impact Mixed Fund - Offensive generated a return (after costs) of -0.96%, while the benchmark yielded -1.58%.
- Both bond markets and global equity markets were hurt by rising inflation numbers and higher interest rates. The slowdown in Chinese economic growth, decreasing consumer purchasing power and aggressive monetary policy actions by Central Banks were the main worries. The fund outperformed its reference index. Equities were relatively strong, mostly because of a positive currency effect. The selection effect was negative. Bonds (slightly) outperformed the fixed income reference index.
- The fund has overweight positions in Communication Services and Consumer Staples and has no exposure to Energy, which was the best performing sector. Consumer Discretionary and Information Technology were the biggest contributors to the return. In Equities, the fund is overweight in Japan and Europe and underweight in the US both for valuation and sustainability & governance reasons. Bonds are all euro denominated.
