You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

**Type:** Triodos Impact Strategy Fund - Neutral is a sub-fund of an open-ended investment company with variable capital.

**Term:** The fund has no maturity date. Triodos Investment Management is not entitled to terminate the fund unilaterally.

**Objectives:** The fund has sustainable investment as its objective as set out in article 9 of the SFDR. The fund's investment objective is to create long-term capital growth for its investors through a diversified portfolio. The fund invests in a wide range of impact themes such as renewable energy, sustainable agriculture, organic food and microfinance through a balanced number of Triodos investment funds. The fund also utilizes Triodos investment funds to invest in shares of listed companies on international exchanges and in corporate bonds, impact bonds, government bonds and semi-government bonds issued in EUR. The fund also invests directly in a loan to a Triodos fund with the purpose to create a sustainable, more inclusive economy in developing countries. Triodos investment funds in which the fund invests are selected on the basis of a combination of good financial results and good environmental, social policy and governance performance. Countries and their regions must meet the minimum requirements

set. In addition, underlying dependence (correlation) and contribution to the risk, return and liquidity profile is considered. The fund is actively managed, but not in reference to any benchmark. The distribution of shares, bonds and alternative investments is within the following ranges:

- Shares: 27.5% - 57.5%
- Bonds: 32.5% - 62.5%
- Alternative investments: 0.0% - 25.0%

**Intended retail investor:** The fund is suitable for the retail and institutional investors who can afford to set aside capital for a long-term period. The investor is aware that they could lose some or all of their investment. Investing in the fund is suitable for the basic investor with a basic knowledge of the relevant financial markets and products as well as for the informed investor. The basic investor is able to make an informed investment decision based on the regulated and authorised offering documentation, or with the help of basic information provided by point of sale.

Orders to buy and sell shares are ordinarily processed daily. Capitalisation share classes reinvest the fund's net realised income, while distribution share classes may distribute it.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level. The product may be exposed to risks, such as interest rate risk, credit risk and liquidity risk. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		EUR 10,000	
Scenarios		If you exit after 1 year	If you exit after 4 years
Stress	<i>What you might get back after costs</i>	EUR 8,792	EUR 8,700
	Average return each year	-12.1%	-3.4%
Unfavourable	<i>What you might get back after costs</i>	EUR 8,792	EUR 9,858
	Average return each year	-12.1%	-0.4%
Moderate	<i>What you might get back after costs</i>	EUR 10,393	EUR 11,576
	Average return each year	3.9%	3.7%
Favourable	<i>What you might get back after costs</i>	EUR 11,543	EUR 12,912
	Average return each year	15.4%	6.6%

This type of scenario occurred for an investment between December 2014 and December 2024. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Triodos Investment Management is unable to pay out?

As required by law for your protection, the fund's assets are held with a separate company, a depositary, so the fund's ability to pay out would not be affected by the insolvency of Triodos Investment Management. If the fund is terminated or wound up, the assets

will be liquidated and you will receive an appropriate share of any proceeds, but you may lose part or all of your investment. Your loss would not be covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

shown here are illustrations based on an example investment amount and different possible investment periods.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 4 years
Total costs	EUR 152	EUR 694
Annual cost impact*	1.5%	1.5% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.2% before costs and 3.7% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This product does not charge an entry fee.	EUR 0
Exit costs	This product does not charge an exit fee.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.52% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 152
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell.	EUR 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

## How long should I hold it and can I take money out early?

### Recommended holding period: 4 years

Given the nature of the underlying investments of the fund and its objective of sustainable investment, a minimum holding period of 4 years is recommended. In general, the fund will invest in listed, risk-bearing assets that are deemed to be liquid in the short term. In most cases, added value in the fund will be generated over the medium to long term. Thus, investments in the fund require a

medium to long-term investment horizon of the investor.

You can redeem your investment daily. No redemption fees or penalties are charged at the level of the product. Redeeming your investment before the end of the recommended holding period may have a negative impact on the risk or performance of the product.

## How can I complain?

If you have a complaint, you can submit it in writing to:
