1. **Appropriation of Surplus**
   
   Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend pay-out ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 50 yen per share is proposed. The company made a net loss in the year under review.

   The JR East Group is currently implementing a development plan known as "Move Up" 2027, this involves significant investment in infrastructure and capital projects which are will increase revenues and the earning potential of the company in the longer term.

SUPPORTING INFORMATION FOR RESOLUTIONS

Proposal 3.1 - Elect Mori Kimitaka as Corporate Auditor
The traditional governance structure for Japanese companies (Kansayaku) involves the appointment of corporate auditors. Large Japanese companies are required to form a board of corporate auditors with powers to examine board activities and oversee financial reports. Such companies are required by law to appoint at least three statutory auditors to the corporate audit board. At least half the corporate auditors must qualify as ‘outsiders’. Beyond this legal minimum, it is considered to be best practice that boards of corporate auditors should be composed wholly of outsiders. New appointments are therefore considered in the context of their effect on the balance of independence.
Note: It is considered that the corporate auditor board will be 40.0% independent following the Annual Meeting.
