<b>PROPOSALS</b>		<b>ADVICE</b>
<b>1.1</b>	<b>Elect Robert S. Silberman - Chair (Executive)</b> Executive Chair. It is a generally accepted norm of good practice that the Chair of the Board should act with a proper degree of independence from the company's management team when exercising his or her oversight of the functioning of the Board. | <b>2 Re-appoint PricewaterhouseCoopers LLP as the Auditors</b>  | <b>Oppose</b> |
| <p>PwC proposed. Non-audit fees represented 11.23% of audit fees during the year under review and 11.23% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.<br/>Triodos opposes this resolution.</p>  |               |
| <b>3 Advisory Vote on Executive Compensation</b>  | <b>Oppose</b> |
| <p>The company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment.</p> <p>The company uses adjusted performance metrics for most elements of compensation. The use of non-GAAP metrics prevents shareholders from being able to assess fully whether the performance targets are sufficiently challenging. The company included non-financial metrics into the annual bonus structure, which is considered best practice. The annual incentive award made during the year under review is not considered to be overly excessive as it amounts to less than 200% of base salary. Awards under the annual-incentive plans are tied to multiple performance conditions, which is considered best practice. Maximum long-term award opportunities are limited to 200% of base salary, which is considered as acceptable practice. Retention awards made up less than one-third of the awards granted to executives, which is considered best practice. The minimum performance period prior to vesting is less than three years, which is considered to be short term. Five-year vesting would be preferred. Executive compensation is aligned with peer group averages.</p> <p>The compensation rating is: ECB<br/>Triodos opposes this resolution.</p> |               |

## SUPPORTING INFORMATION FOR RESOLUTIONS

### Proposal 3 - Advisory Vote on Executive Compensation

**Disclosure: E** - The company has provided the level of fees paid to the Compensation Consultants. The disclosure of these fees is encouraged in the interests of greater transparency. The performance metrics used to award the Annual bonus have not been disclosed. Specific performance targets for all long-term awards have not been adequately disclosed.

**Balance: C** - The company uses adjusted performance metrics for most elements of compensation. The use of non-GAAP metrics prevents shareholders from being able to assess fully whether the performance targets are sufficiently challenging. The company included non-financial metrics into the annual bonus structure, which is considered best practice. The annual incentive award made during the year under review is not considered to be overly excessive as it amounts to less than 200% of base salary. Awards under the annual-incentive plans are tied to multiple performance conditions, which is considered best practice. Maximum long-term award opportunities are limited to 200% of base salary, which is considered as acceptable practice. Retention awards made up less than one-third of the awards granted to executives, which is considered best practice. The minimum performance period prior to vesting is less than three years, which is considered to be short term. Five-year vesting would be preferred. Executive compensation is aligned with peer group averages.

**Contract: B** - Cash severance is limited to three times base salary; which is welcomed. Change-in-control payments are subject to double-trigger provisions. 'Good reason' is not defined appropriately, such that the Remuneration Committee is able to apply discretion when determining the status of a departing executive. The Compensation Committee has full discretion to accelerate the vesting of awards upon a change of control, which is a concern. The claw-back policy is considered appropriate as it applies to short- and long-term incentives, and is not limited to cases of financial misstatement.
